5 Years Guarantee Period

We attend to complaints immediately by sending over our skilled technicians to facilitate solutions and ensure least inconvenience to the client

We issue Bills for all products, therefore you should insist on the same at the time of purchase to safe guard your rights as a consumer

A Guarantee without a supporting bill is of no use. Hence beware of Guarantee periods in the event that no bill is given.

Our tanks are available at all leading Hardware Stores.

Our tanks are double layered made from virgin LLDPE without any cheap fillers. Design is stronger and Weight is more than all other tanks for longer life.

Outer layer is black which protects the tank from harmful Ultra Violet sunrays. Inner layer is a food grade whitener Titanium Di Oxide which is safe for your family. It also enables you to see inside when tank is full. It is also a UV stabilized hence the tank will not get damaged even if the tank lid is left open. **SHAKTI** is therefore safer than other tanks, which use "Robin Blue" as a whitener, which is not food grade or UV Stabilized. The inside of other tanks looks bluish and also degrades if the lid is left open.

The tank has soft feel, yet when full will not bulge. Other tanks feel hard due to excessive use of carbon black and fillers which are cheaper than the plastic raw material LLDPE, that is used in **SHAKTI®** tanks. Mosquito proof threaded lid with no warping. Therefore no excess to Lizards, Insects and Mosquitos.

Your Checklist For Peace For Mind

| Feature | SHAKTI ^o | Brand X | Brand Y |
|---------------------------------------------|------------------------------------------------------------------------------|-----------------------------------|---------|
| Threaded Lid (above 500 Lts) | Mosquito Proof Threaded Lid, no serews, no rust. | | |
